

**ZOE** is a boutique-sized, dedicated home care provider focused on truly getting to know the people we support.

We believe that quality care comes from real connections — taking the time to understand each person’s unique needs and being there in ways that matter. We choose quality over quantity, offering personalised, consistent support that feels meaningful and genuine.

Our goal is simple: to help people live as independently as possible, with dignity, comfort and respect.

Our qualified team will support you through the complexities of the Aged Care system, bringing skilled support workers to your home to help you with basic home support (such as showering, cooking and cleaning etc) to more personalised support, to enable you to attend family functions, weddings, take a holiday or tick something off your bucket list! Whatever it is, we are here to help.

**We add more life to your years – not years to your life**
